

Robust & reliable 218kW indirect fired heater, perfect for delivering fast effective heating to marquees, warehouses, workshops & industrial units.

- Burner cover: protects the burner against blows, dust, water, weather & collects diesel fuel
- Burner supplied with snorkel jack to ensure clean air combustion through connection with outdoor air uptake duct
- Heat exchanger designed with high performance fans which ensure high efficiency
- Sturdy attachment rods allow for movement on any floor
- Bearing structure with removable panels for interior washing
- Panels with reinforcement cross pleats to ensure superior rigidity & strength
- Ventilator conforms with European directives
- Low sound level - below 67db at 2 metres
- 7-blade fan with high performance for uniform diffusion of warm air through duct
- Control rear electrical panel - Supplied with a sturdy metal cover to prevent damage & unauthorized access
- Service front electrical panel - Located inside the burner cover lid to prevent contact with dust, water & snow

Detail	Jumbo 235
Heat Output	218kW
Temperature Increase	55 degrees
Power Supply	230 V/50 Hz
Plug Type	16A 3 Pin BS4343
Fan Type	-
Max Current	-
Air Flow	17,000M <sup>3</sup> /hour
Air Pressure	-
Outlet Diameter	-
Max Duct Length	6M
Weight	357kg
Dimensions (WxLxH) mm	982 x 2245 x 1584
Fuel Consumption	18.65 litres/hour
Sound Level	<67db at 2 metres
