

The Ordos is a robust dehumidifier capable of standing up to the most rigorous of site demands, ideal for longer periods of drying for construction projects or flood/fire recovery or to manage damp in buildings that have been vacant. It can also operate at 0°C which means that in any season, the Ordos will operate effectively, whatever the use.

- Humidistat
- Hour Counter
- Dual Voltage
- Condensate Pump

| Detail                | ORDOS         |                           |
|-----------------------|---------------|---------------------------|
| Dehumidification      | Extraction    | 25.5L/24hrs @ 70%RH/20 °C |
|                       | Running amps  | 3.6 amps                  |
| Weight                | 36 kg         |                           |
| Power Supply          | 230v/50Hz/1ph |                           |
