

A high-performance, energy-efficient heating fan in a new design, with two power settings: 36 kW / 72 kW. Robust and practical with a lightweight construction, in powder-coated, corrosion-resistant, galvanized sheet steel. The design of the fan and housing maximize the throw and spread of warm air. TF 72EL is equipped with our sheet metal air distributor, which gives 360-degree air coverage and is capable of maintaining the temperature in an area of around 1500m². Accessible, modular construction makes cleaning/servicing easy and ensures easy access to the electrical box. Equipped with control card and display. The display provides easy control through a menu system, for setting temperature, fan speed, etc.

| Detail | TF 72EL |
|-----------------------|-----------------------------|
| Heat Output | 72 kW |
| Power Supply | 415v 3ph 50Hz |
| Plug Type | 125A 5 pin BS4343 |
| Voltage | 3N~400V |
| Output modes | 36-72 kW |
| Air Flow | 7910/6454 m ³ /h |
| Air coverage | 360 - degrees |
| Temperature Increase | 40/47 °C |
| Weight | 180kg |
| Dimensions (WxLxH) mm | 2200 x 740 x 1110 mm |
| Sound Level | 69/63 dB(A) |
