

The Rhino Fume EX three-in-one air mover cools, ventilates and extracts air from restricted or open environments – whether its clean or dirty. The features of this product include a six-bladed fan, a 550W motor and a single-speed output of 3,250 M3/hr. You can also take advantage of high-capacity cooling at the flick of a switch, while these products will stack to let you move even more air!

- Powerful fume extractor designed to offer ventilation, cooling or extraction in spaces such as workshops, factories and garages
- Stackable to save space when serious air movement is needed
- 6 blades
- 31cm (12") diameter balanced fan
- 550 watt motor
- Single Speed: 3,250m<sup>3</sup>/hour output
- Supplied complete with: 5 Metre Length of Ducting

| Detail                  | Fume EX               |
|-------------------------|-----------------------|
| Cooling Capacity/Output | -                     |
| Power consumption       | -                     |
| Max air flow            | 3250m <sup>3</sup> /h |
| Power Supply            | 230V / 1ph / 50Hz     |
| Exhaust Air Hose        | -                     |
| Weight                  | 12 kg                 |
| Dimensions (WxLxH)      | -                     |
| Plug type               | 13A 3 Pin BS1363      |
| Typical Cooled Area     | -                     |
| Running Current         | 1.15 Amps             |
| Sound Level             | -                     |
| Fan Speeds              | Single Speed          |
| Reservoir Capacity      | -                     |
